

enchanted ride

*Andromeda*, with her melodies and paintings, created magical and all-encompassing effects on all civilisations. It is widely believed that conflicts and wars were resolved after the perpetrators of misery had visited the magic ship! Therein lies the healing quality of the paintings.

What Pier Paderni likes most are colours... different light shades, mixtures, contrasts and a fantastic melting of infinite gradations. A simple approach and free rein of fantasy are the basic tools in his creative process. Nature also plays a pivotal role in this pathfinding and exclusive collection.

The inherent timelessness of the paintings enralls our spirit and recreates the magic in our lives.

*Attreyee Roy Chowdhury*
